

NO - MAP Noise mapping and action planning

Structured Session
Organizer: Christian Popp
Chairmen: Christian Popp, Klaus-Georg Krapf

- 226-0 keynote Christian Popp, Frank Heidebrunn
From noise mapping to action planning
- 233-0 invited Lars Ellebjerg Larsen, Hans Bendtsen
Economic assessment of traffic noise in the planning process – Danish experiences
- 267-0 invited Hintzsche Matthias
Noise mapping and action planning for industrial areas
- 337-0 invited Pal Zoltan Bite, Maria Bite, István Dombi
The Budapest noise mapping project
- 344-0 invited Jochen Richard
Combination of noise and air pollution abatement plans
- 595-0 invited Margit Bonacker
Participation process acc. to Directive 2002/49/EC
- 615-0 invited Klaus-Georg Krapf, E. Wetzler
Adaptation of national noise prediction methods to Directive 2002/49/EC – Requirements on noise mapping tools
- 686-1 invited Hans Bendtsen, Lene Michelsen, Brian Kristensen
New ideas for organising and financing urban noise abatement
- 745-0 invited Andrew Bullmore, Justin Adcock, Ian Flindell
A balanced approach to managing risk in environmental noise assessments
- 971-0 invited John Hinton
BUMP – The Birmingham Updated Noise Mapping Project
- 299-0 contributed Rita Markovits-Somogyi, Ákos Sobor
Analysis and validation of „Rep-Zaj” – a Hungarian developed noise simulating software for noise mapping around airports
- 350-1 contributed Bram de Greve, Tom De Muer, Dick Botteldooren
Outdoor beam tracing over undulating terrain
- 394-1 contributed Francesco Asdrubali, Stefano Ortica, Andrea Presciutti, Cristiana Simoncini
Implementation and validation of an innovative land register for environmental noise
- 432-0 contributed Giovanni Zambon, Alessandro Bisceglie, Simone Radaelli
Location of the areas where the limits provided for by the Italian Regulations are exceeded along the one thousand kilometers of the Lombardia State roads
- 491-0 contributed Barbara Rudno-Rudzinska, Tomasz Habrat
Influence of calculation parameters on time and accuracy of city road noise computations
- 540-0 contributed Wolfgang Probst
Strategic mapping of noise and air pollution
- 670-0 contributed J. I. Bento Coelho, D. Alarcão
On noise action plans for large urban areas
- 718-0 contributed Alan Stimac
Implementation of Directive 2002/49/EC in EU Candidate State: Experience in Croatian noise mapping projects
- 751-0 contributed Itziar Aspuru, Manuel Vazquez, Pilar Fernandez
Experiences in introducing Noise Management processes: Particular needs require particular solutions
- 819-0 contributed Sergio Luzzi, Andrei A. Vassiliev
A comparison of noise mapping methods in Italian and Russian experiences
- 649-0 poster Rudolf Cholava, Michal Kalab, Jarmila Tvaruzkova, Petra Dvorakova
Advanced approach to the assessment of road traffic noise in the Czech Republic
